

Genome and Gene Edition in Trypanosomes

Montevideo, 10 – 14 December 2018

Facultad de Ciencias, Universidad de la República

Instituto de Investigaciones Clemente Estable, Ministerio de Educación y Cultura

Participants- Dra Gabriela Burle(UFMG-BH, Brasil), Dr Tiago Campos Pereira (USP-RP, Brasil), Dra. María Ana Duhagon (UdelaR, Uruguay), Dra. Beatriz Garat (UdelaR, Uruguay), Dr. Roberto Hernández (IIB-UNAM, México), Dra. Leticia Pérez Díaz (UdelaR, Uruguay), Dr. Pablo Smircich (UdelaR, IIBCE, Uruguay), Dr. Santuza Teixeira (UFMG-BH, Brasil)

Aims- Update on Genomics, Bioinformatics tools, and Gene Edition focusing in the CRISPR/Cas9 system in Trypanosomes.

Organization- full day work schedule including:

1. Lectures in Genomics and Genetic Edition
2. Laboratory Sessions- Wet laboratory
3. Laboratory Sessions- Dry/Computational laboratory
4. Presentation and Discussion of current scientific work

Language- Lectures would be given either in Spanish, Portuguese and/or English.

Applications- Complete the form at <https://bit.ly/2NeyMGo>

Lodging and meals for accepted foreign students will be provided. Total or partial reimbursement of travel cost will be considered

Deadline- September 30
